

The Gamers' Emporium – *Drugs Policy*

- 1) If you are caught smoking/ingesting/injecting/selling drugs (or so-called “legal highs”) on the premises, you will be banned from the store for life.
- 2) We will also pass your details to the police, along with CCTV evidence if available.
- 3) We will notify all other gaming stores that we have contact with throughout the UK that you have been banned from our store and why, and will ask them to consider extending the ban to their premises as well.
- 4) Furthermore, the people you are gaming with that day will receive a 3 month ban from our store.
- 5) The only exception to 4) will be if it is the people you are gaming with who make us aware that you are taking drugs in store.

At the management's discretion this policy will also apply if you are under the influence of drugs in store, even if the drugs were not taken in store.
